NEW BOOK TEACHES CHILDREN ABOUT WHERE BABIES COME FROM, IN TERMS ONLY THEY CAN UNDERSTAND

Los Angeles, CA – 11/1/11 – “Where did I come from?” This is a question every parent fears hearing. Yet children often become aware of this topic, far too early for most parents’ comfort level. Now, Dr. Greg Marconi and Michael Marconi have written a book to help parents deal with the uncomfortable questions that begin around pre-school.

Their book, “We Made You Out Of Love”, is a funny, exciting, and heartwarming story that will give children a satisfying answer to the question: "Where did I come from?", years before they are ready to learn about the facts of life. The book gives children 3 - 6 age-appropriate, non-graphic explanations, but doesn’t deal with topics they're not old enough to comprehend. The book is a great way to broach the subject of reproduction, and it allows individual parents to decide how much or how little of the technical details they feel their child is ready for.

The book has breathtaking artwork, comedic situations and combines the perfect amount of information and entertainment woven into a truly heartwarming story. "We Made You Out of Love" is the perfect story and learning tool for all families, one that children are going to want to read again and again... for years and years to come.

“We Made Your Out Of Love” is published by Telemarcus Press and is available on amazon.com, barnesandnoble.com and fine bookstores everywhere. Electronic copies are also available on Apple’s Ibooks, Amazon’s Kindle and Barnes and Noble’s Nook.
